

## AFW Planning Agenda Up to April 22 Conference Call

[Agronomy Feeds the World Planning Agenda.pdf](#) (47 KB, uploaded by 7 years 7 months ago)

### TO DO:

#### **Prior to April 22, 2016**

Review the “Agronomy Feeds the World Survey Summary” and direct questions to Jodi.

Log in to AFW Group on <http://dig.plantingscience.org> (see invitation via email).

Pick first two choices for “key concept” team. We will assign these during the call.

#### **April 22, 2016**

Conference call with team members

During this call, we need to decide on a project for the module, in addition to the theme/key concepts that could be covered with this project.

#### Agenda:

Discuss <http://dig.plantingscience.org> organizational structure.

Review project ideas.

Vote on project that touches on majority of key concepts.

Divide into 4 “key concept” groups for May 21st planning session. Suggestions: 1) Field to Table – From where does food come and how does it get there? 2) Plant Nutrition and Soil Fertility – How do plants get nutrients to grow? 3) Geography and Water – How do these aspects affect growth of the same crops? 4) Plant Stresses – What are potential issues with growing food?

Discuss possibility of a paper presentation (at ASA meeting) on this process. (Jamie)
