

## **AFW Planning Agenda up to and during May 20 to May 22 Meeting**

### **Prior to May 20, 2016**

Review the following documents (Can be found in “File” section of Group page):

*AFW Kickoff notes*

AFW Key Concepts and Outcomes (Summarizes “Kickoff” notes)

Agronomy Grow with It Section Summaries

Inquiry Author Team Guidelines

Begin exchanging ideas with your team members and begin collecting potential resources/web links in a shared in the team wiki page on <http://dig.plantingscience.org>. **May 20, 2016**

Arrive in Madison, WI (Please see “Logistics” attachment or March 22 email, also in “File” section of Group page).

### **May 21, 2016**

8:30am – 6:00pm (times approximate)

We will break into teams to work on different sections of the module, with a focus on the key concepts as outlined in the “Kickoff Meeting Notes” (also in “File” section).

#### **Agenda:**

Break group into 4 teams one to tackle each ‘key concept.’

Each team chooses a ‘key concept’ on which to build and separate from rest of group.

Taking each “Learning Outcome” into consideration, flesh out key components of how to develop a module: 1) Overview; 2) Content; 3) Logistics; and 4) Consider mentors, teacher, and student guides

Return to main group and discuss any questions/issues prior to lunch

Each team reviews their outline with the main group.

Teams break up again, this time to integrate all 4 concepts into each component of the inquiry module.

Come back together to large group and review entire program.

## AFW PLANNING AGENDA UP TO AND DURING MAY 20 TO MAY 22 MEETING

---

Craft a completed AFW module(s).

### **Questions to consider:**

What plant(s) will be used?

What should be experimental setup?

Will this fall within the timeframe?

Possibly with several experimental options for inquiry?

### **May 22, 2016**

Wrap up any unfinished business by 12:00pm.

Depart Madison, WI.
